CORE SKILLS

- **Front-End Development:** Proficient in building responsive and dynamic user interfaces using React.js, Bootstrap and Tailwind CSS. Skilled in working with HTML, CSS, JavaScript, and integrating APIs to create seamless front-end experiences. Additionally, proficient in customizing and developing websites using WordPress.
- **Back-End Development:** Experienced in server-side development using Node JS, creating scalable back-end systems with RESTful APIs, handling server-side logic, and managing databases. Proficient in working with SQL databases like MySQL and other database systems to store and retrieve data efficiently.
- **Programming Languages**: Proficient in HTML, CSS, JavaScript, Node JS, React JS, SQL, Bootstrap, Tailwind CSS, and Wordpress for software development.
- **Data Structures & Algorithms:** Strong understanding of algorithms and data structures, with experience optimizing code for efficiency and performance
- **Problem Solving & Debugging:** Adept at solving complex technical challenges and debugging software issues to ensure seamless user experiences
- **API Integration:** Capable of working with RESTful APIs, managing server-side logic, and integrating third-party services.
- **Version Control & Collaboration:** Experienced in using Git for version control and collaborative development in team environments.
- **UI/UX Design:** Knowledgeable in creating user-friendly interfaces and improving user experience through thoughtful design and front-end optimization.
- **Database Management:** Familiar with database systems like MongoDB, MySQL, and SQLite for efficient data storage and retrieval.'
- **Mathematical Problem Solving:** Utilized mathematical techniques in algorithm development and software solutions, including optimization and statistical modeling.
- **Software Tools & Environments:** Proficient in Visual Studio Code, Postman, and other development tools for software testing and debugging.

PROJECTS/CERTIFICATES

E-commerce website | Wordpress, Woo-commerce.

E-commerce web application | React JS, Material UI, Node JS, Mongo DB

Real time School Chat Application | React JS, Tailwind CSS, Node JS, Express JS, MySQL, Web sockets.

Crowd Funding Application | React JS, Tailwind CSS, Node JS, Express JS, MySQL,

QampusPlus Secondary | Collaborated and worked on several features of the front-end of this live project.

Responsive Web Design | Freecodecamp

Javascript Algorithms and Data Structures Certification | Freecodecamp

Dunamis skills acquisition training programme (Web development)

INTERPERSONAL SKILLS AND INTERESTS

Skills: Strong oral and written communication | Teamwork | Critical thinking | Creativity | Organization Music| Website development | Problem Solving.

PROJECTS & FEATURES

1. **Crowd Funding Application (June 2024 – September 2024):**
   - **Technologies:** React JS, Node JS, Tailwind CSS, Express JS, MySQL, JWT, Multer, Joi, Nodemailer, Paystack API
   - **Key Features:**
     - User Authentication using JWT
     - Admin & User Dashboard.
     - Protected Routes.
     - Public Routes.
     - Payment Integration with Paystack.
     - Email notifications with Nodemailer.
     - Email Templates.
     - File Upload to server with multer.
     - CRUD operations on database.
     - Roles and permissions.
     - Dynamic algorithm generated user content.
     - Data validations.
2. **Real Time Chat Application (May 2024 – June 2024):**
   - **Technologies:** React JS, Node JS, Tailwind CSS, Express JS, MySQL, JWT, Web sockets, Joi, Cloudinary.
   - **Key Features:**
     - User Authentication using JWT
     - Admin & User Dashboard.
     - Protected Routes
     - Real Time Chat messaging.
     - CRUD operations on database.
     - Roles and permissions.
     - Data validations.
3. **Ecommerce shop (March 2024 – April 2024):**
   - **Technologies:** React JS, Material UI, Node JS, Paystack API, Mongo DB, Joi
   - **Key Features:**
     - User Authentication using JWT
     - Admin & User Dashboard.
     - Protected Routes
     - Payment Integration with paystack.
     - File Upload with cloudinary.
     - CRUD operations on MongoDB.
     - Roles and permissions.
     - Data validations.
4. **Ecommerce website (May 2024):**
   - **Technologies:** Wordpress, Woo-commerce
   - **Key Features:**
     - Blog page
     - Home page.
     - Cart
     - Recommended Products.
     - Checkout.
     - About us
     - Contact us page.

5. **QampusPlus Secondary (June 2024 – September 2024):**
   - Collaborated and worked on the frontend of Qampusplus Secondary application, which is a live application built on React JS and Node JS and in use by various secondary schools across the company. This is a product of Techvibes Limited Abuja.
